- Managing end-to-end client requirements ensuring on-time delivery of scalable, high-performance web solutions
- Implementing API integrations and WooCommerce customizations resulting in improved e-commerce functionality

Pixlogix Infotech Private Limited | Jul 2024 – Mar 2025 | Remote

Sr. Web Developer

- Developed and maintained 10+ complex WordPress and Shopify based web applications within 9 months
- Collaborated with design and backend teams to deliver pixel-perfect, responsive interfaces across all screen sizes
- Handled REST API integrations and third-party service connections reducing manual workflow effort for clients

Techtic Solutions | Jul 2022 – Jun 2024 | Remote

Web Developer

- Architected and delivered Headless WordPress solution using WP GraphQL connected to React frontend on Netlify
- Led a cross-functional team of 4-5 members across multiple departments managing full project lifecycle via JIRA
- Integrated dual CRM systems — Gravity Forms (V1) and HubSpot (V2) — improving lead capture efficiency

Vaikunth Technologies | Nov 2021 – Jul 2022 | **On-site, Bhavnagar**

Sr. Web Developer

- Developed 8+ custom WordPress themes and plugins tailored to individual client business requirements
- Handled WooCommerce store setup, customization, and payment gateway integrations for e-commerce clients
- Improved website performance and security across all projects through WP Rocket optimization and hardening

Strats360 Technolabs LLP | Jan 2020 – Nov 2021 | **On-site, Bhavnagar**

WordPress Developer

- Built and maintained 15+ WordPress websites with custom theme and plugin development over 2 years
- Converted PSD designs into fully responsive WordPress themes with 100% cross-browser compatibility
- Managed multiple client projects simultaneously ensuring consistent on-time delivery and quality output

NET2TYPO Web Services | Jul 2019 – Dec 2019 | **On-site, Bhavnagar**

Web Designer (Internship)

- Assisted in designing and developing responsive web interfaces using HTML5, CSS3, and JavaScript
- Gained hands-on experience in WordPress theme customization contributing to 3+ live client projects
- Supported senior developers in client project delivery and website maintenance tasks

RELEVANT PROJECTS

Dashword Plugin Development

- Architected a custom WordPress plugin leveraging OOP principles for clean, maintainable code
- Implemented dynamic admin menu system featuring Dashboard, Settings, Jobs, and Billing modules
- Engineered seamless integration with external backend APIs for real-time data communication

Custom API Development

- Designed and developed a robust custom REST API to automate WooCommerce order management
- Integrated with Probo API (Third-Party Printing Service) for automated order dispatching
- Built real-time order status sync mechanism to keep WooCommerce updated with latest fulfillment data

Clothify Custom Theme (Shopify)

- Developed a fully customized Shopify theme based on the native Dawn framework
- Integrated custom HTML/CSS designs for a unique branded storefront experience
- Ensured full responsiveness and cross-browser compatibility across all devices

Food Compatibility Calculator

- Built a feature-rich custom WordPress plugin with a dedicated admin panel for data management
- Implemented interactive DataTable integration for dynamic, searchable, and sortable data display
- Achieved significant performance improvements via WP Rocket optimization and caching strategies
- Conducted thorough security hardening to protect against common web vulnerabilities

Techtic Website

- Implemented Headless WordPress architecture using WP GraphQL connected to a React frontend hosted on Netlify
- Engineered dual CRM integration — Gravity Forms (V1) and HubSpot (V2) — for seamless lead management
- Led a cross-functional team across multiple departments, driving project delivery from planning to deployment
- Managed full project lifecycle using JIRA for sprint planning, task tracking, and team collaboration

Seekeen Electronics

- Developed a fully functional WooCommerce-powered ecommerce store with Hello Theme as the base

- Configured product catalog, payment gateways, and shipping modules for a seamless shopping experience
- Optimized store for performance, SEO, and mobile responsiveness to maximize conversions

Booking Arts — Event Management System (Core PHP)

- Built a dynamic Event Management System using Core PHP with event listings, pagination, and advanced filtering by Artists, Venue, and Date Range
- Designed and developed a custom REST API for real-time user activity tracking across the platform
- Created a secure admin login system with a comprehensive dashboard panel displaying full website analytics and tracking data with filter options

PERSONAL PROJECTS

Work Bridge — HRM System (Laravel)

- Developing a personal HRM (Human Resource Management) System using Laravel as a hands-on learning project to strengthen backend development skills
- Implementing core HR modules including employee management, attendance, and role-based access control using Laravel's MVC architecture
- Exploring Laravel's ecosystem — Eloquent ORM, Blade templating, Migrations, and RESTful API development — to broaden full stack capabilities

LANGUAGES

Gujarati — Native **Hindi** — Fluent **English** — Conversational

EDUCATION

Gyanmajari Institute of Technology | 2016 – 2020

Bachelor of Information Technology (IT)
